---	--

Hi,

Thank you for your Booking, this is such a great way to get started on your sewing journey.

Places are not secured until payment is made.

I allow 3 days for your payment to arrive from the time you book.

Payment details are on the checkout page and will also be emailed in your invoice.

Classes are held at -39 Yarraowee Drive,

Nerang, in my fully equipped sewing Studio. Look out for my sewing Machine Letterbox,

Sewing Machine- You are welcome to use one of my sewing machines or bring your own, that way I can give you extra tips on your machine as well.

What to Sew - ***Choose any project and pattern you like***, clothes for yourself, home Dec like cushions or table runners or you might like to sew kid's clothes or maybe a lined purse.

If you are not sure where to start, some great first projects you may like to choose

- Straight or A-lined skirt- with either an elastic waist or zip and waistband. You are welcome to use one of my Skirt patterns or you can bring your own. If you use my pattern you will need to trace it off and I have poly trace available for this, \$6 for 3m.
- Bags, I have a few different ones you can choose from that have great techniques to get you started
- Cushions, you can sew a simple cushion with a zip no pattern needed.

If you want to choose your own project, that's no problem- you will need to bring your own pattern.

If you can avoid Vogue, and Burda Patterns to start with

Whichever project you choose you will need fabric, good quality thread and any notions needed for that pattern if you need any help with this just message or call me and I can help advise you on pattern and fabric. I do have a mini Studio shop and carry, most basic items like interfacing, elastic and Thread etc.

What Do I Bring There is no need to rush out and buy sewing tools as I have everything you need and there are so many different types, some really great and others useless? This way I can show you exactly what you need, and you can get them as we go along.

I also have my favourite dressmaking scissors available to buy. They have one blade that has a serrated edge which helps to prevent the fabric slipping as you cut out and they are top quality and will last for years. I have them in right-handed \$65 and left-handed \$69.

If you are starting from scratch. I have put together a kit with all my favourite tools including dressmaking scissors for \$110.this is a great way to get started

I have attached my Dressmaking eBook for you. This book has great getting started information, *you do not need to choose any of the projects in the eBook*

If you need any help, just message me and I can help advise you on pattern and fabric.

I am looking forward to sewing with you.

Cheers Fee
